Urea 46-0-0-0

Nitrogen	(N)	Total as Urea	46.2% w/w
Biuret	(-)	Maximum 10mg/kg	Typical <9.5mg/kg
Cadmium	(Cd)	Maximum 10mg/kg	Typical <1.0mg/kg
Mercury	(Hg)	Maximum 5mg/kg	Typical <0.1mg/kg
Lead	(Pb)	Maximum 100mg/kg	Typical <1.0mg/kg
Formaldehyde	(-)		Typical 40.0mg/kg

Product Information

DIRECTIONS FOR USE:

A concentrated Nitrogen Fertiliser. Mainly used for side or top-dressing pasture and forage crops, grain, vegetables and pre-plant application in grain crops. Also used in tree and vine crops. If surface-applied without incorporation, best results are achieved if applied before rain or irrigating. Urea can also be applied in irrigation water, and as a foliar spray. This fertiliser contains biuret. It is not recommended for repeated foliar application on annual or perennial horticultural crops.

This product may be used in stockfeed supplements for ruminants under veterinary advice. Cattle should be introduced to urea slowly, feeding 15 g/day initially, and increasing it by this amount weekly, until a rate of 60 g/day is reached. Urea is poisonous if fed in excessive quantities, or too quickly. Plentiful roughage should be available. Do not feed urea to starving stock.

Because climatic and soil conditions, application methods, irrigation, agricultural and grazing management practices are beyond the control of Impact Fertilisers Australia Pty Ltd and cannot be foreseen, Impact Fertilisers Australia Pty Ltd accepts no responsibility whatsoever for any commercial damage, loss or other result following the use of this product whether used with directions or not, subject to any overriding statutory provision and provided such liability under those provisions shall be limited to the replacement of the goods as supplied or rendering again the services that are provided. The buyer accepts and uses this product subject to these conditions.

SAFETY DIRECTIONS:

This product contains Dust. Do not swallow. The dust from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin.

WARNING:

The dust from this product may irritate the eyes and skin. Avoid contact and inhalation of dust.

STORAGE:

Store in cool, dry well ventilated area, removed from oxidising agents and foodstuffs. Do not store in silos.

CARE OF EQUIPMENT:

This product can be corrosive to metals. Clean equipment after use, and follow manufacturer's maintenance advice.

MSDS:

The MSDS for this product can be downloaded from the IFA website (www.impactfertaust.com.au).
